8th MEETING OF THE TECHNICAL COMMITTEE *03 - 05 March 2008, Bonn, Germany*

AEWA Technical Committee Work Plan 2006-2008 *(Approved on 13 Feb 2006 and amended on 01 Nov 2006)*

Introduction

This work plan has been collated by the Agreement's Secretariat after the 3rd Session of the Meeting of the Parties (MOP3) on 23-27 October 2005. The plan outlines major tasks to be fulfilled by the TC in the triennium 2006-2008 as instructed by MOP3 and previous MOPs or by the Agreement's Action Plan (for each task see reference to resolutions or AP paragraphs). It does not reflect duties to be performed on regular basis, such as project applications review and approval, or irregular issues that may emerge over the triennium.

The TC approved the present work plan in February 2006 through a written procedure (via e-mail) and amended it during the 7th TC meeting on 29 October – 01 November 2006. The plan could be amended again either at any TC meeting in the triennium or intersessionally again through a written procedure in order to enhance delivery of outputs or better reflect realities.

Following the current practice in the TC each task will be taken forward by a TC working group consisting of several regional representatives, organisation representatives, appointed experts, observers, as well as Secretariat staff. Against each task the working group members are noted with abbreviations of their names in no any particular order (see full names in the end of the document). The only exception is the first mentioned person who is supposed to take the first initiative and when appropriate to chair the working group, and provide for the delivery of results.

Some of the tasks are not to be fulfilled solely by the TC and will require input (reports, assessments, etc.) by external consultants. Therefore these tasks could only be fulfilled if resources permit. Those tasks are formatted in *Italic*. The Secretariat should endeavour to provide necessary resources to fulfil all tasks.
